

**First time offer!!! Free Gift with Purchase of the Dynamic Trio: Fantastic Lip Treatment- Value \$32.95** Plump those lips up and indulge them in this revolutionary lip treatment that moisturizes and enhances lip contours

**Get Rid of dry skin today!!!**

**THE DYNAMIC TRIO:** Provides cumulative effects and moisture binding properties with reduction in the depth of wrinkles!

Here is how the “Dynamic Trio” works: **Step One: Amino Lift Peptide**, a new generation, high potency spot treatment. This ultimate wrinkle minimizing complex is applied to areas of most concern like crows feet, marionette lines, forehead lines and most effectively on those pesky lines around your mouth. The **Amino Lift** firms the tissue surrounding these problem areas but does not take the place of a moisturizer. **Step Two: Line Filler**, or our “**Botox in a bottle**” is now being used layered on top for **Instant Plumping, firming and lifting the skin to reduce visibility of fine lines and wrinkles!** **Step Three: Face Firming Complex**, is now used immediately after the Amino Lift Peptide and Line Filler. It is an ideal **intensive treatment for all skin types** that supplements the skin-rebuilding ability while reducing wrinkles and fine lines on the face, eye and neck areas. It deeply hydrates, firms and tones the skin by locking in the products and moisture. **THIS TRIO WORKS!!!** Usage for all three is twice daily.

*These additional products are state-of-the-art and scientifically formulated to address the demanding needs of sun damaged, aging skin with highly advanced antioxidants. Your skin will appear smoother and younger with continued use.*

**Micro-Mineral Resurfacing Treatment:** Combining the power of natural sapphire crystals with semi-precious gemstone extracts, this two step resurfacing system helps create a harmonious skin care treatment. **Use once a week**

**Lip Treatment:** Plump those lips up and indulge them in this revolutionary lip treatment that moisturizes and enhances lip contours. **Use twice a day**

**EyeBright Intensive Eye Cream:** Using modern technology in peptides to firm and hydrate the delicate area under the eyes, eliminating under-eye discoloration and reducing eye bag volume. Improves firmness and elasticity **Use twice a day**

**EyeBrite Anti-Puffiness Gelee:** Deploys powerful, peptide-packed compound to help calm swelling, revitalize circulation while making the under eye appear tighter and feel firmer. **Use twice a day**

**Daily Mineral Guard SPF 25- Micro-Mineral Resurfacing Treatment**nized titanium dioxide provides a broad spectrum, transparent barrier against UVA/UVB rays while minimizing the negative effects of UV rays. Soybean extract for cell repair that helps reverse signs of UV damage. Paraben-free, non-greasy and suitable for all skin types. **Use once a day**

**Ultra Volumizing Mascara-** with fibers to make your lashes long and luxurious

We are now also using and teaching our clients the art of a skin care “cocktail”. Sounds interesting doesn’t it! For all of you who use multiple products you will now put them into the palm of your hand and make one solution. It will save time and be easier to apply.

**Cocktail instructions:** For all of you who use multiple products you will now put them into the palm

of your hand and make one solution. It will save time and be easier to apply. So your **Botanical Peptide**, **Hydra Gel** and **Face Firming Complex** are each placed into your palm, mixed together with a finger tip and then placed on your face. The **eye cream** goes next and the brand new **SPF 25 Sun Block with titanium dioxide** is the last product used. If you use any of the **Glycolic Serums** they are now used in the night only directly after the **Amino-Lift Peptide** and before the night “cocktail” which now also contains your **Vitamin C Serum**. It has been noted in studies that the **Vitamin C Serum** and **Vitamin C Cream** work best at night. **Please note:** Sun block is only used in the daytime.
